

19th June, 2004

Dear Miles,

I wanted to write to let you know that Mikayla Jean was born on the 7th June, 2004.

I also wanted to thank you so much for all the care and expert attention that you gave me during that last seven weeks of my pregnancy. I know that my labour was much easier because of your chiropractic expertise. Mikayla is also looking forward to seeing you at the clinic to make sure that everything is going well.

Mikayla is still getting her days and nights a little muddled but we are definitely settling down to a routine. The clinic sister who called in yesterday described her as a beautiful healthy baby.

Thank you once again,

Helene Jean and Mikayla Jean
